DUDDY Whitepaper

Abstract DUDDY is a community-driven digital asset built on the Solana blockchain. The project focuses on long-term sustainability, transparency, and organic growth rather than short-term speculation.

Vision DUDDY aims to establish a recognizable, trustworthy meme-based ecosystem that balances culture, utility, and governance.

Technology Built on Solana, DUDDY benefits from high throughput, low fees, and fast settlement.

Ecosystem & Utility Future plans include centralized exchange listings, branded merchandise, charity initiatives, and DAO governance.

Roadmap Phase 1: Foundation Phase 2: Organic Growth Phase 3: Brand Expansion Phase 4: Ecosystem & Governance
